

CLOU 892

A completely different cantilever chair. Back and armrests joint and insert each other together without interruption, a typical product of Martin Ballendat. The back shaped on the structure has got a high comfort which is enriched by the use of the innovative material "soft touch". A perfect seat shape gives the model the last touch. The cantilever base is available black, white lacquered or in chromium plated steel. The soft touch material convinces not only for its softness but also for its durability and its easy maintenance. The material is waterproof, 100% hygienic and is available in a wide choice of colors.
