

H-VASES

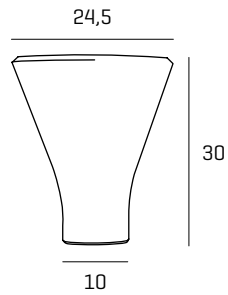

Vases made of porcelain stoneware fired at 1250 °C. Each one is individually hand-turned and the finish is made applying oxide and natural wax which are mixed and manually applied. Every piece and its finish is different, a one-of-a-kind work of art because they are all made entirely by hand.

Vasi realizzati in grès cotto a 1250 °C. La foggatura viene fatta manualmente al tornio e la finitura della superficie è realizzata attraverso l'applicazione di ossidi e cere naturali mescolate assieme e applicate a mano. Questi pezzi sono da considerarsi unici, in quanto la forma, essendo realizzata a mano, ed anche la finitura della superficie sono diverse.
