

manhattan

Pictured as a 2.5 seater

manhattan

The settee version of our successful Manhattan modular. David Shaw has designed an exclusive wool wrap seat cushion to maximise the comfort. This allows for easy maintenance with a luxury feel. The base has a tray system for the cushion to offer a negative detail. The finer details are evident in this design when you take a closer look.

measurements

Chair	1230mm
2.5 seater	2210mm
