

RIBOT

Una presenza sensibile, in equilibrio, delicata, calda. Un oggetto-scultura composto da un diffusore in ottone lavorato a mano. Questa lavorazione rende la luce prodotta da una sorgente luminosa a led vibrante, viva, simile ai riflessi prodotti da una superficie liquida in movimento.

A perceivable presence, in balance, delicate, warm. An object-sculpture composed by a brass handmade loudspeaker. This process makes the light, produced by a LED light source, vibrant, alive, similar to the reflections of a liquid surface in motion.

FINITURE / FINISHES

Ottone martellato lucido

Polished hammered brass

25 kg

1,5 m³
