

Design
Rodolfo Dordoni

Description
Sunlounger

Structure
Aluminium frame treated with electrostatic powder painting with polyester base that gives more protection from scratches and also the final coloring to the product.
Reclining back: 4 positions

Batylne
Technical fabric made of a PVC-coated polyester wire grid bearing membrane.
This material combines excellent technical performance with a high aesthetic value.
The special textile construction makes it very resistant to weathering and ensures quick drying.

Cushions
Standard or hydro-draining

Weight
Weight: 21 kg
Cushion weight: 5 kg

Storage cover
Available

Maintenance

Aluminium
In case of exposition to weather conditions it is recommended to wash regularly the product with mild and fresh water. If the product needs a thorough cleaning, use a neutral soap (UNIVERSAL CLEANER) and warm or hot water.

Dry immediately to avoid stains and halos caused by water.
Brush following the direction of polish (if the product is not painted) and use a microfiber cloth to obtain a better result.

Batylne
Brush the surface or treat it using water and neutral soap (UNIVERSAL CLEANER). Do not use any abrasive products, acid substances or aggressive chemical solvents.
