

DUET TABLE LIGHT

DESIGNED + MADE IN NEW ZEALAND

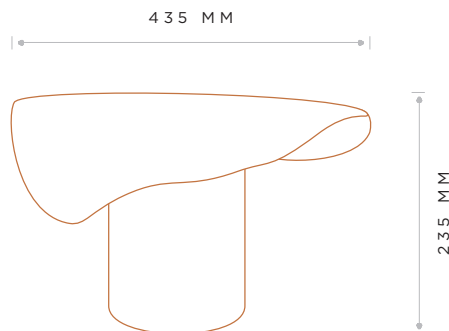

DUET

A beautiful and sculptural statement piece, the Duet Table Light is designed to complement modern interiors, its natural materials and organic hood juxtaposing the sharp lines of interior surfaces.

A turned timber base and rolled shade, hand finished in multiple colour combinations. Merging the material sensibilities of both David Shaw Furniture and Nightworks Studio.

Due to the nature of the hand finishing process, each light has its own unique and inherent qualities.
