

RIVER COFFEE TABLES

DESIGNED + MADE IN NEW ZEALAND

RIVER

A sculptural expression of material and form, this piece brings together the raw beauty of nature with refined craftsmanship.

Solid timber tops are intersected by flowing resin channels, embedded with hand-selected stones to create a striking, organic centreline no two ever the same. The contrast between the warmth of the timber and the textural depth of the inlay creates a quiet statement, grounding the piece while drawing the eye.

Crafted with precision, the base offers a bold architectural presence, balancing softness in shape with strength in structure. Available in solid timber or veneer finishes, each piece can be tailored to suit its environment while maintaining its signature, nature-inspired detail.

Designed to sit as both a functional surface and a conversation piece, it brings a sense of calm, connection, and understated luxury into any space.
